

Otters Class Blog - 25.9.2020

Welcome to Year Two!

This week we found out that our new topic is 'Heroes and Villains'. We are looking at heroes and villains in traditional tales to start with. Braidie and Isaac said that we have read Little Red Riding Hood and in that story mum is the hero because she smacks the wolf over the head!! (Isaac). The wolf is the villain because he ate grandma. (Braidie). We created freeze frames from different parts of the story. On

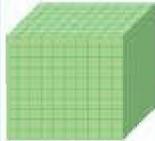

Tuesday we drew a map from Little Red Riding Hood's house to Grandma's house, showing her way through the woods and everything she might have passed on the way.

We also sequenced some pictures to tell the story and wrote sentences about them. On Thursday we drew story S to tell the story in pictures.

In maths this week we on our number tracks. missing numbers and we had to fill them in. We have been partitioning today, to show how many 10s and 1s are in a number, using deines.

have been practising adding on 1 We also had number tracks with

Thousands	Hundreds	Tens	Units/Ones
			
1000	100	10	1

to

Beau and Elsa really like counting 100 using different actions to go along with the counting.

In Forest School this morning, we were inside due to the weather. We had a lovely time making different crafts and using various pieces of equipment. Erin and Sophia both made picture frames using wood and string. They had to learn to tie a special knot to hold them together. Matthew and Ryan did some hammering. They hammered some nails into pieces of wood and also hammered to do some leaf printing. After that they made holes in some pieces of wood to make things.

In science this week we looked at germs and how they are spread. Joshua and Evie told me that they had a piece of potato that they dipped in flour and then patted the potato onto different surfaces, such as chairs, the climbing frame, the track. Splodges of flour were left on the different things and this showed how we spread germs (Evie)
