

**Monday**

**Get a rocket's-eye view!**

Listen to the story on tapestry. "Back to Earth with a bump!"

Visit the NASA website to see and discuss images of Earth from outer space. Explore the Earth from above on google Earth. Use scientific vocabulary such as a sea, ocean, land, island, forest, city, lake and river.

<https://www.nasa.gov/topics/earth/images/index.html>

You could look at the amazing pictures of the Martian landscape captured by Mars Rover, 'Curiosity'. Try to spot similar features on Mars or other planets in a selection of aerial photographs, such as Martian river beds and mountains on Venus.

**Year One Topic Spring Term 1**  
**'DESTINATION OUTER SPACE'**

**Thursday**

**Weather**

Each of the planets in our solar system experiences its own unique weather. But one thing is certain: Only Earth has weather we can live with.

Watch the video on Tapestry about weather.

Create a weather diary and record the weather for a week.

**Tuesday**

**Which planet do I live on?**

Listen to the story on Tapestry. "Here we are" by Oliver Jeffers.

Complete the booklet on where we live.

**Where Am I in the World?**

**Wednesday**

**Why do we have seasons?**

Watch the video on tapestry about the seasons.

Complete the purple mash seasons quiz:

[https://www.purplemash.com/#app/games/2diy/Seasons\\_Quiz](https://www.purplemash.com/#app/games/2diy/Seasons_Quiz)

**Friday**

Be a weather presenter. Can you present the weather to your family? Use the symbols we looked at in the video or create your own! Film and put it on Tapestry.
